

February 15, 2024

To Whom It May Concern:

Master Plant-Prod Inc. certifies that any blended material we manufacture and offer for sale is guaranteed by the label that appears on that bag/container of material. For custom formulations, the specification sheet provided for customer signing is our guarantee of the blended formulation provided.

Basic analysis material sold through Master Plant-Prod Inc. is guaranteed by the manufacturer listed on the bagged material. We can only guarantee that if we make a change to the source of a basic analysis material offered for sale, it will meet our quality and consistency standards through initial and ongoing quality control testing. We are unable to guarantee what our distributor will supply to the end user.

Sincerely,

Laura Barbison
Technical Manager
Master Plant-Prod Inc.
